

Inequality

WHAT IS OUR GOAL?

- **Our goal is to show what the school does to diminish differences between students.**

HOW DID WE GET TO THIS TOPIC?

- **We got to this topic through the ISOTIS Project.**

WHAT IS INEQUALITY?

- The term inequality is used to indicate the opposite of equality, which means, the lack of balance between two or more parts.

**WHAT ARE THE THINGS YOU KNOW
THAT THE SCHOOL DOES TO REDUCE
INEQUALITIES?**

**WHAT IS THE OPINION OF THE
EMPLOYEES THAT DISTRIBUTE SNACKS?**

According to the employee, all students should have the right to a snack, delivered by the municipality, so that no student arrives at the break with no snack because of lack of financial conditions.

SOLIDARITY

CLICK

What does the “Solidarity Click” does to diminish inequalities inside and outside the school:

- **In the beginning of the year, we started by collecting food with the help of a school race to give to students in need;**
- **In Christmas, we sold red noses to help hospitals;**
- **With the help of two school peers, we collected food and hygiene products for an animals association;**
- **We collected plastic caps to help a child who needed a wheelchair;**
- **We collected food and hygiene products to help Mozambique;**
- **We sold bracelets to help the Make-a-Wish Foundation.**

(Contribution of an element of the responsibility Solidarity Click)

LIBRARY

LIBRARY:

- The Library is a resource that fights the inequalities that exist among the students of the school, as it promotes the loan of different materials to all its users.
- Lending books and/or tablets gives everyone access to resources they would otherwise not enjoy.

COMMUN

MATERIAL

COMMUN MATERIAL:

- By making the material available in the school spaces (pens, pencils, sheets, etc.) students do not spend money to buy their own material. In addition, everyone uses the same material, reducing inequalities among students.
